## </> PORTFOLIO

<https://nemanjagradic.com> 🌐

## 📦 WHAT I BUILD

- Booking Systems
- E-commerce Stores
- Custom Business Applications
- Landing Pages

## 🌐 LANGUAGES

- Serbian
- English: B2

## 👤 PROFILE

Full-Stack Web Developer specializing in custom web applications for businesses, including booking systems, e-commerce platforms, and business solutions. I create software designed around each company's unique processes, helping businesses save time, improve operations, and deliver better experiences for their customers.

## 🖥️ DEVELOPMENT EXPERIENCE

### Independent Full-Stack Development

- Designed and developed full-stack web applications, including booking platforms, e-commerce stores, and custom business tools.
- Managed projects from initial planning and architecture through development, testing, and deployment.
- Created scalable solutions focused on improving business workflows and customer experiences.

**Delhaize Group**, Online orders

2025 – 02/2026

**Chingu**, Web developer

2024 – 2024

Collaborated remotely to develop a React-based color matching app.

## 🎓 EDUCATION

**Bachelor of IT**, University Singidunum

2018 – 2023 | Belgrade, Serbia
